MS RE: State Requirements for Elevator Inspections

The State of Florida mandates the following statute concerning inspection procedures that you need to be aware of. The Bureau of Elevator Safety requires that the owners of conveyances have inspections performed. Section 399.061 (1)(a), F.S. requires:

1) All elevator or other conveyances must be annually inspected by a certified elevator inspector or by a municipality or county (AHJ) under contract with the Bureau of Elevator Safety to perform inspections.

OR

2) If the conveyance is not an escalator or a dumbwaiter, services only two adjacent floors, and is covered by a service maintenance contract, an inspection is not required by statute, so long as the service contract remains in effect. To benefit from this exemption, you will need to provide a statement to the Bureau verifying the existence of each service contract on an annual basis. Cancellations must also be reported to the Bureau. Annual safety tests must still be performed in accordance with ASME A17.1, section 8.3.

OR

3) If you do not wish to have this Inspection Service included under your agreement, please mark this box and sign below ☐

If your elevators are in fact maintained under a maintenance service contract with us, we will be glad to provide this inspection with proper documentation for the additional amount of \$25.00 per month per elevator. All fees due to the state for operating licenses shall be the responsibility of the owner. Should re-inspections be required because of work that is the owner's responsibility, the owner shall be responsible for any re-inspection fees.

Thank you for the opportunity to be of service. Please don't hesitate to call if you have any questions or concerns.

Sincerely,

Dan Redmond
